Coronavirus Disease 2019 (COVID-19)

The Cal OES State Operations Center (SOC) activated 03/02/20 at 0700 hours in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

Situation Overview

- **California State of Emergency Proclamation**

On 03/04/20, Governor Gavin Newsom declared a State of Emergency for California, as a result of the global COVID-19 outbreak that began in December 2019, to make additional resources available, formalize emergency actions already underway across multiple state agencies and departments, and help the state prepare for broader spread of COVID-19.

- **Global Health Advisory**

On 08/06/20, in close coordination with the U.S. Centers for Disease Control and Prevention (CDC), the Department of State lifted the Global Level 4 Health Advisory. The Global Advisory, initially put in place on 03/19/20, advised U.S. citizens to avoid all international travel due to the global impact of COVID-19. For more information visit: <https://www.state.gov/>

- **State Executive Order N-33-20**

On 08/28/20, California introduced a blueprint for reducing COVID-19 in the state with revised criteria for loosening and tightening restrictions on activities by counties. Visit [Blueprint for a Safer Economy](#) for more information and to check the status of a county. This blueprint included a health equity metric to be used along with other metrics to determine a county's tier. The purpose of [Equity Metric](#) is to ensure California reopens its economy safely by reducing disease transmission in all communities.

- **CDPH Statewide Travel Advisory**

As of 04/02/21, CDPH and the CDC recommend delaying travel until persons are fully vaccinated. For more information visit: <https://www.cdph.ca.gov/Programs/CID/DCDC/Pages/COVID-19/Travel-Advisory.aspx>
